Cargill® Helping
the world
thrive

From Farm to table: Chicken with Flavor, Quality and Sustainability in every bite

Nourishing the world in a safe, responsible and sustainable way

Cargill is a family company committed to providing food, ingredients, agricultural solutions and industrial products to nourish the world in a safe, responsible and sustainable way.

We sit at the heart of the agricultural supply chain, partnering with producers and customers to source, make and deliver products that are vital for living.

Our enterprises: Sourcing, making and delivering vital products

Food

Providing manufacturers, foodservice customers, retailers and consumers with protein products and a range of ingredients and solutions.

Ag & Trading

Connecting farmers and users of grains and oilseeds through sourcing, processing and distribution while providing trading and risk management solutions.

Specialized Portfolio

Serving diverse businesses serving unique customers or markets, including animal nutrition and health, bioindustrial, road safety salt, and Cargill joint ventures.

We are...

How we source, make and deliver goods that are vital for living

Source and trade

Partner with farmers and ranchers growing crops and raising animals.

Originate, source, store and trade commodities.

Provide global insights and risk management solutions.

Make and transport

Transport goods from where they're grown and produced to where they're needed.

Craft meat, egg and alternative protein products, and salt, oils, starches, cocoa and sweeteners.

Formulate feed to support animal health and productivity.

Create nature-derived, bio-based products and biofuels.

Deliver for customers

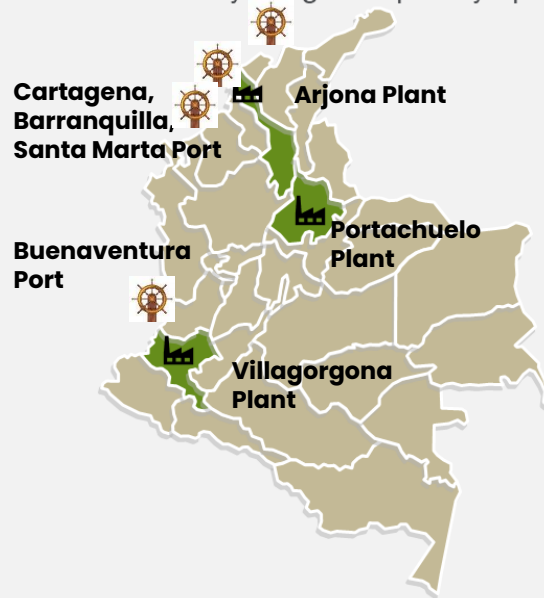

Sell food products and ingredients, agricultural solutions and bio-based industrial products to manufacturers, farmers and ranchers, foodservice customers, retailers and consumers—to nourish the world in a safe, responsible and sustainable way.
